## Proves Jews Are Doing Their Part

### Dewey Quotes Figures at Meeting

NEW YORK—Thomas E. Dewey at a B'nai B'rith rally in Manhattan Center last week answered with statistics, whisperers who say that American Jews aren't holding up their end in this war. Dewey showed: 3 per cent of the population is Jewish;

Of the 75 recipients of the Distinguished Flying Cross thus far 8 per cent have been Americans of the Jewish faith.

During World War I, Dewey said, whisperers also were busy (Continued on page 2)

## Contract Renewed

**RABBI MORRIS G. SILK**

At a meeting of the Ahavath Sholom Synagogue, held last Sunday Rabbi Morris G. Silk was given a ten-year renewal as spiritual leader of the Congregation following the expiration of his present three-year term.

Speaking on behalf of the Congregation, Archie Smith, president, praised the work done by Rabbi Silk, pointing out the growth and expanded activities of the Synagogue since his arrival. Numerous other testimonial talks were given by various members of the Congregation.

## British Agree, But Defer Army Plan

### 60,000 Potential Soldiers Available

LONDON—The British Government has agreed upon the formation of an international Jewish Army "in principle", but action has been deferred indefinitely through a shortage of shipping space, equipment and other difficulties, it was revealed today by R. Maillard Stead, military correspondent of the Christian Science Monitor.

This was disclosed following investigation of a situation alluded to here on March 10 by the American Rabbi, Dr. Abba Hillel Silver, vice-chairman of the Zionist Organization of America and Chairman of the United Jewish Appeal in the United States. Dr. Silver claimed that if the British Government declared itself in favor of the formation of a Jewish Army, America would welcome it with enthusiasm.

The Jewish plan is to build up a fighting machine on the foundation of 60,000 potential Jewish soldiers in Palestine, where there is no conscription at present. Some 12,000 of these are volunteers in the Jewish companies of British battalions in that part of the world, but in such units they are balanced by an equal number of Arabs organized in companies of their own.

What is envisaged in relation to the Jewish Army is not, of course, an establishment of Jewish formations within the existing British setup, but a self-contained "national" contingent under British command, with a position similar to the Free French, the Free Belgians, the Free Poles, the Free Netherlands, and others.

## 62 Rabbis Hit Jewish Army Idea

NEW YORK — Formation of a Jewish army to fight under its own flag is opposed by 62 American rabbis. The clergymen in a signed statement say such a force would "lead to further friction in Palestine" and cause added difficulties for Jews everywhere.

Admitting a sharp division of opinion on the subject among American Jews, the rabbis urge as a countermeasure the immediate arming under the British flag of all Palestinians loyal to Great Britain and the United States.

## Bill Bans Bias Advertising in N. Y.

ALBANY — A bill forbidding New York State departments or agencies to advertise in newspapers which publish want-ads discriminatory in their language to any race, creed or color was introduced this week in the State Legislature by Assemblyman Mintz. "We cannot extol democracy on the editorial pages only to mutilate it in the want-ads," Mintz said.

## ARZT TO TOUR

NEW YORK—Dr. Max Arzt, director of Field Service and Activities at the Jewish Theological Seminary of America, will soon tour the country on behalf of the National Conference of Christians and Jews together with a Protestant and Catholic minister.

## Editorials

### A Step Nearer

With the ousting of Lord Moyne as Secretary of State for British Colonies, one of the most influential opponents to the Jewish army has been removed.

Lord Moyne has consistently delayed the project under the excuse of insufficient equipment despite Prime Minister Churchill's statement that there was "no more shortage of military supplies."

In contrast, Viscount Cranborne, who replaces Lord Moyne, has constantly shown an interest in the Jewish problem. One of the first to recognize the danger Hitler represented to the world, Lord Cranborne is understood to be not unfavorably inclined toward the idea of a Jewish National Home in Palestine.

Thus the ousting of Lord Moyne, plus the other replacements in the British cabinet, indicate a radical change in British Colonial policy. Approval of a Jewish army seems nearer today than ever before.

### Fr. Curran Speaks

Despite the vigorous objections of liberal groups, Father Curran, imitator of Father Coughlin and backer of the Christian Front, was guest speaker at Evacuation Day exercises in Boston last week-end. And while he wisely stuck to a patriotic theme, he couldn't resist a subtle plug for isolationism.

"If the thirteen colonies," he said, "could resist the British Empire, then surely these forty-eight states can stand alone against the world."

An incident occurred, however, that demonstrated that Father Curran and his satellites, have not changed their spots.

Acting on asserted authority from the chairman of the meeting, a self-appointed guardian of order compelled Miss Frances Sweeney, secretary of the Irish-American Defense Association, to leave the press table and caused her to be evicted from the meeting before the main address had begun.

While Father Curran whose utterances have given support to Fascistic groups in America enjoyed not only freedom to speak but freedom to speak at a meeting partly paid for by Boston taxpayers, his critic was denied even the right to listen.

## National Workers League Supersedes Black Legion

DETROIT — Despite the war and talk of American unity, this city, notorious for its Black Legion, has another such organization called the National Workers League, which is openly pro-Nazi and anti-Semitic. George E. Deatherage is claimed as a National Committee member of the group. William Dudley Pelley, Silver Shirter, is also connected with the organization. Deatherage and Pelley are avowed anti-Semites.

It is learned here that last week the National Workers League met and discussed, among other things,

the Roosevelt Administration, the Jews and the British.

Following the line set by Germany, Garland T. Alderman, League Secretary, asserted that Roosevelt is making a mistake by connecting himself with the British. "The idea of fighting for British Imperialism," Alderman stated, "making the world safe for Communism, and for imposing the Jewish international-banking system on all peoples of the world in the name of the Atlantic Charter, written without legal authority by Roosevelt and Churchill when our nation was supposed to be neutral, is neither patriotic nor American."

Although the organization's headquarters had been raided six weeks ago by agents of the Die Committee, meetings are still being held, in spite of the United States' entry into the war.

## Sold Kosher Meat, Nazis Execute Him

ZURICH—Because Chemoj Wyszowski, Jewish inhabitant of the town of Ceglow in Poland could not forget he was a Jew, Nazi authorities had him shot, it was revealed in the Lemberger Zeitung Nazi paper arriving here.

Specifically charging that he slaughtered cattle according to Jewish ritual a special court condemned him to death, the Nazi newspaper report read.

## Palestineto Aid India War Effort

NEW YORK—Palestine engineers and technicians, many of whom had achieved fame in pre-Hitler Europe, stand ready to provide some of the skilled training and leadership needed for the rapid expansion of India's war production.

This news is contained in a cable from Jerusalem to the United Palestine Appeal stating that Professor E. Goldberg, Palestine representative at the New Delhi Economic Conference, had been asked at the conference to take a special census of Palestine technicians and experts who would be available to assist in the development of the war effort in India.

## The War This Week

### Production

War Production Chairman Nelson said man-hours now being put into military production could be doubled if all equipment involved were used 24 hours a day. He asked manufacturers for monthly reports to show how rapidly industry is being converted to war work, the degree of utilization of equipment and any factors interfering with maximum production.

### Shipping

Maritime Commissioner Vickery reported the 1942-43 "Victory" ship construction program has been increased from 18 million to 20 million deadweight tons to produce 2,000 ships in two years. Admiral Vickery said U. S. ship production will be greater than all the rest of the world combined.

### Rubber and Gasoline

President Roosevelt in a letter to State Governors proposed speed

limits of 40 miles per hour be established throughout the country to conserve rubber. He also proposed the States enact regulations requiring frequent checking of tires to insure repair and retreading at proper times.

The WPB said deliveries of gasoline to service stations and bulk consumers in 17 Eastern States, the District of Columbia, Washington and Oregon will be cut by one-fifth beginning March 19. Service stations in the curtailment areas must limit their operations to a maximum of 12 hours in any one day and to a total of 72 hours a week, except to provide service for certain essential civilian users.

## Russia Receives Matzos, Medicine

NEW YORK—For hundreds of thousands of Polish Jews who are refugees in Russia, this Passover will be a double holiday, it was stated this week by Moses A. Leavitt, secretary of the Joint Distribution Committee, as he revealed that large shipments were on their way to Russia for the use of 600,000 Polish Jewish refugees there. Sixty tons of matzo have left the United States, Mr. Leavitt said, as well as a large part of the \$30,000 worth of medical supplies purchased by the J. D. C. in behalf of the Polish refugees.

## 22 Stations Carry Yiddish Programs

WASHINGTON — There are 22 stations in the United States which carry Yiddish programs, according to a survey of foreign-language stations made by the Federal Communications Commission in an effort to determine whether any measures must be taken to gear all radio programs to the defense effort.

## ACCUSES DIES

WASHINGTON — Representative Eliot has charged Congressman Martin Dies with reviving anti-Semitic pamphlets, so as to spread the anti-Jewish literature under the guise of revealing anti-Semitic leaders.

## Anti-Nazi League Defends Winchell

NEW YORK—The Non-Sectarian Anti-Nazi League this week went to bat for Walter Winchell in a statement which accused his critics of "seeking revenge for the effective work Winchell has done in exposing America's appeasers".

The statement follows: "Walter Winchell has done more than almost any other journalist in the United States to focus public attention upon the intrigues of fifth columnists aimed at our national integrity and unity. At a time when many Americans did not realize the danger and when our Government was powerless under the law to take effective steps against subversive activities, Walter Winchell was able so to confound the enemies of America through his tireless and unremitting attacks that many of their intrigues died aborning.

"Not the least important phase of his work is his brave exposure of those powerful individuals who attempt to hide their sniping at our democracy under cover of the flag.

"It is up to the Navy Department to decide just how it wants to make use of Winchell's services. If the wolves are baying for Winchell's scalp, most Americans will understand why."

President Roosevelt, in a radio address, said the fight "against inflation is not fought with bullets or with bombs, but is equally vital . . . It calls for mutual good will and willingness to believe in the other fellow's good faith . . ." The Labor Department reported the average family's food bill jumped 0.5 percent between mid-January and mid-February.

## Priorities, Allocations

Purchases, sales and rentals of various types of new office machinery were halted by the WPB, except to persons possessing high preference ratings. The Board extended the ban on use of "bright work" to all types of motor vehicles and prohibited its use in replacement parts. Manufacture of bicycles was curtailed. The Board directed canners to set aside for the Government considerable quantities of their 1942 pack of fruits and vegetables.

Announcement was made today by Harold Cohen, membership chairman, that forty-two members have qualified to attend a membership banquet, to occur in May at a downtown hotel.

## Dewey Proves Jews Doing Their Part

When complete statistics were available, the result was:

4 per cent of the U. S. Army was Jewish;  
5 per cent of men killed in action were Jews.

"There is an ever-recurrent litany tending to minimize the part our Jewish citizens take when the country is at war," Dewey said. "The battle against this malicious libel is a never-ending fight, but the facts always beat it down."

## Fr. Curran Speaks

(Continued from Page 1)

The Christian Science Monitor which is investigating men like Father Curran and societies similar to the Christian Front reached the following conclusion this week:

"Certainly most Americans will agree with the Attorney-General that this is no time to start an hysterical witch hunt, but is it wise to permit Axis propaganda to flourish under American protection?"

Pro-Fascist Americans are using these subversive societies to promote the work of the Axis here and to provide material for an active fifth-column movement. It's time that America wakes up and cleans house.

## Rothschild Heiress Occupies Small Greenwich Village Flat

NEW YORK—Until the fall of France in June 1940, Bethsabée Rothschild lived in one of the most beautiful historic houses in Paris the famous Talleyrand palace of the Place de la Concorde. From her bedroom windows she could see the gardens of the Tuilleries. Her father, Edouard Rothschild headed the French branch of the international banking firm of Rothschild and Company. With his cousins, he controlled a fortune of more than \$500,000,000.

Today, Bethsabée's home is a three-room rear apartment in Greenwich Village. Her windows look out upon the drab brick walls of a wholesale clothing factory and tenement building.

"But I am not unhappy," she said, "I have never been interested in possessions. Even if one could have a personal regret, it would be so small in comparison to the bigger tragedy of the world today."

For the first six months after he arrived here from France in July, 1940, she studied bio-chemistry at Columbia. Now she works at various charities and researches on the dance.

The only thing she brought with her when she fled France was her microscope.

"I had to decide in two hours who to take," she said. "To me my microscope was my most valuable possession, so I brought that." Her mother brought \$1,000,000 worth of jewels.

"She still has them," Bethsabée said. "Under the law, unless you pay duty at once, you cannot sell them for three years."

Aside from her microscope, the clothes on her back and a few shoes tossed in a handbag she has nothing to remind her materially of France.

"Now I am a refugee," she said. "But I am not lonely. All our family except two of my cousins are in this country. However, I cannot forget that this is a time of struggle for America, as well as for the whole world, and that I have left my friends and my country in a terrible state of misery."

### N. Y. Times Backs Project

NEW YORK—The New York Times this week, reporting that a project is now taking shape in Washington for the formation of an American Foreign Legion composed of refugees now in this country, expressed the hope in an editorial that "the plan may be carried out."

"Those from Poland, Czechoslovakia, Greece, Yugoslavia and the Netherlands are here because they were driven out of their homelands. Russians exiled by the Stalin Government are not unwilling to fight against Hitler. . . . Three hundred and fifteen thousand 'enemy aliens' from Germany, 402,000 from Austria and Hungary, include many stalwart men who have proved at great personal risk their hatred of Hitlerism."

## N. Y. East Side Mothers Tell of Changing Times

NEW YORK—Gone is the picturesque, old-fashioned Ghetto mama of the lower East Side. Gone, her unawareness of life around her. She has been succeeded by a second generation of efficient women who give active proof that democracy is working. While many like her still live in the old-law tenements of the lower East Side, they are interested in housing conditions, food prices, child nutrition and the up-to-dateness of their own four walls.

In recent interview, two of these mothers, Mrs. William Flax and Mrs. Nathan Fishman, Rutgers Pl. neighbors, talked of a changing life on the lower East Side. It has been brought about, they say, by settlement houses.

Their homes are bright oases hidden by drab tenement walls. Their cheerful rooms come as a complete surprise after an ascent through dark halls and up steep stairs.

Both women are members of the Mothers' Friendship Club at Madison House. Mrs. Flax, who was born in the section where she lives, went to Madison House Kindergarten when she was a girl. Through Madison House she joined the League of Mothers' Clubs 12 years ago, and has been to Albany three times on club legislation.

has been the chief cause of our troubles down here. It was through our mass efforts that we got the Vladeck housing project put through in this district.

"I help work for that but I can't live there. I still have to live in an old-law tenement because the joint income of my family is just over the limit set by the housing authorities."

Mrs. Flax looked around her neat, blue-walled living room. "But I don't mind. We're very comfortable here. My girls and boys have grown up in Madison House. This neighborhood is my home. I moved away once but I had to come back. I missed it so."

Like the old-time Ghetto mama, Mrs. Flax is on the plump side, but there the resemblance ends. She wore a well-fitted and becoming dark blue dress. Her light brown hair was smartly done and she spoke clearly and with knowledge about legislating for lower milk prices, shopping for nutritious foods and budgeting her housekeeping allowance.

Unlike Mrs. Flax, her neighbor, Mrs. Fishman has only been a member of the Madison House and the Mothers' Club for a year.

She lives up four flights in an old-law tenement at 18 Rutgers Pl. The halls are dark and the plaster is flaking off the walls, but her apartment is clean and bright. The kitchen, with its white enameled sink, stove and refrigerator, might easily serve as a model show-window kitchen.

"I lived in this apartment as a girl, if you can call it living," Mrs. Fishman said. "And I can tell you the rooms didn't look like this. Eleven of us were crowded into five rooms. Here we are only four—my husband, myself and our two boys."

Though she describes herself as the shy kind, she is treasurer of the Mothers' Friendship Club.

"I was the kind that stayed a home all the time," she said. "This is good for me. Besides, Madison House and the league do a lot of fine work." She sighed. "I hope to live to see the day when all these old tenements are replaced by new housing projects. I know that day will come."

She moved across the room to adjust the flowers on the center table.

"The right environment is so important. You either live down to it or up to it. The crime rate has gone 'way down in our neighborhood since Vladeck Housing went up."

## Scene Around Town

By HENRY DAVIS

We learned this week that Maurice Stollerman's survey on the State Institutions is now in the hands of Governor McGrath. One of the musical highlights of this coming week-end will be Ralph Einstein—young piano soloist—playing with the Providence Symphony on Sunday night at the Gilbert Stuart high school. The Max Bermans have returned from Florida, where Mr. Berman recuperated from a recent illness. Also back from the sunny climes are Evelyn and Al Cohen, Evelyn Bader and numerous others. Eva Berger is attending the hairdressers' show at the Pennsylvania Hotel in New York this week, to learn what the new patriotic hairdos will be.

CHARLES TESLER, of Pawtucket, whose registration number 441, was the first to be drawn in the 1942 Draft Lottery.

### Army Items

Harry Schlossberg, son of the Joe Schlossbergs has been transferred to the Technical School at Lowry Field, Denver, Colorado. Howard Kane has been promoted to corporal. From Mississippi comes word that Harvey Epstein was visited by his mother, and Louis Weissman had a surprise when his father dropped in to see him. We hear that Morton Salk leaves soon for Alabama, for air corps training. Captain Emerson Torgan is stationed at Camp Shelby. Spotted last week-end at the Olsen-Johnson. "Sons of Fun" show in New York were Fran and Joe Priest.

### Class in America

One of the first persons to befriend Madame Litvinoff when she arrived in this country with her ambassador husband a few months ago was Moe Berg, Boston's scholarly baseball player and inter-American good will ambassador. Without knowing much about American travel customs, the Soviet Ambassador's wife had seated herself in a Pull-

man but had bought only a coach ticket. Mr. Berg gave her his ticket and reservation. Mrs. Irving Miller will open her new delicatessen and grocery at the corner of Hope and Burlington streets some time this coming week. The Philip Gerstenblatts welcomed a son on March 18 at Miriam Hospital. The mother was formerly Rose Levine. While the George Korpers became parents of a son, on March 9 at Lying-In Hospital. Mrs. Korper was the former Hazel Priest.

### Blow for Blow

Abe Simon, a Jewish boxer, will trade blows with Joe Louis on the 27th of this month for the Army Relief Fund. Abe knows just what he's up against, for he tasted one of the champion's K. O.'s only a few months ago. Did you know that the Zionist technique of using the Congressional Record to insert speeches favoring Palestine has been at last taken up by the anti-Zionists? The Jack Greenbergs have purchased a new house. That was quite a luncheon the School for Jewish Women gave last Thursday. Those present were delighted with the talk given by Israel Chipkin, who incidentally is Mrs. Morris Schusheim's brother.

That's all for now.

## Sociology Professor Against Hasty Wartime Marriages

NEW YORK—Dr. Forest M. Keen, instructor in the sociology department of Long Island University, believes that a girl in love with a soldier should not marry him now, but rather wait until he comes marching home again.

And believing this, he proceeds to explain why: "These couples are going to be separated a long time. When they meet again they

### Combined Institutes Elect I. Kaufman

Israel Kaufman was elected and installed president of the South Providence Combined Institutes last week, while the following officials were also named:

Joseph Grossman, first vice-president; Michael Tager, second vice-president; S. L. Tatz, secretary; Louis Himelfarb, treasurer. Rabbi Joshua Werner acting as installing officer. Refreshments were served following the meeting.

may be like different persons. Probably the man will have changed more than the woman. War is a violent experience, even for those who come back sound in body.

"And what if he should come back crippled or shell-shocked," he continues. "It isn't only that she'd then have a difficult person on her hands; he'd have a wife on his hands, and perhaps by that time he'd much prefer to be free. I can't see much chance for the happiness we expect from marriage even though both remained faithful during the long separation."

One way to safeguard marriage, he thinks, is for the wife to accept the fact that war is hardly a time to have excessively puritanical ideas on how virtuous an absent mate should be. The sociologist is convinced that future happiness for both would be surer if she could think of certain bad behavior as an unimportant gesture.

"I believe that to be successful marriage needs to be thought of as a way to share life together because two love each other," Dr. Keen said. "The development of affectional interest is a progressive development that comes from shared experiences. This is possible to most couples. But it has to be built up, achieved. It isn't just found. You've got to work at it. Marriage is an art and a science."

It might be hard to achieve, he admitted, if the wife were here and the husband in service far away. "But even then, with an adequate exchange of letters between the right people, it would be possible," he said. "Marriage at its best in the United States is wonderful—away ahead of any other country in the world."

### Abbott, Costello Film Held Over

Backgrounded against an Arizona dude ranch, "Ride 'Em Cowboy," starring Abbott and Costello, is now in its second week at the RKO Albee Theatre.

The story takes the stars from their berths as hot-dog vendors at a Long Island rodeo, shanghai's them into Arizona and establishes them as cowpokes on a dude ranch. They become entangled in the mesh of girls, wild steers, bucking broncos and a tribe of Indian. Romantic interest is carried on by Anne Gwynne, Dick Foran and Johnny Mack Brown.

The co-feature at the Albee is "Bombay Clipper," with William Gargan and Irene Hervey.

### TOURS COUNTRY

HOLLYWOOD—Al Jolson, although not in the best of health, has been touring the military camps, giving solo entertainment to hundreds of thousands of boys.

## For a Woman's Fancy

By EDYTHE JAY

It's not good taste just looking chic  
Every minute of every week  
The thing right now is to look right  
Every second of day and night ...

This is a season when women are concerned less with the detail of the mode than with their clothes philosophy ... Most spring collections have simply told them, "Dress up for the boys" and let it go at that ... Result, many girls have a guilty feeling about buying bright new clothes and some have apologized for a new number, saying "Oh, my dear, I've had it hanging in the closet for years." ...

Now along comes Mainbocher, with the neatest rationalizing on the subject to date, worth quoting to your friends and to the man who

pays the bills ... He agrees at the start that a woman who looks "to divine, as though she did not know there was a war on" is just as depressing as the woman who lets herself go, has no time for clothes ... He believes clothes should now look "right" rather than "chic" and should reflect the life they are about to lead ...

This man has proved to be quite a prophet in the fashion field before, so better make a note:

1. Simplification of the social setup merges the function of dresses ... This means hems of all Mainbocher daytime dresses are longer—14 or 15 inches from the floor to be exact ... Hems of some evening dresses are shorter ...

2. The town meets the country through a mutual friend—the cardigan ... Wonderful new spring sweater, subtly fitted and lined with bright print to match day dresses ...

3. Boy meets girl and lends her his shirt, his buttonhole carnations and his easy neatness ... Translated, means neat jackets of pin stripe shirting and very new—a full length swagger coat of blue and white finely corded shirting lined in navy shantung over a navy shantung dress, the dress with front peplum ...

Wrapover dresses that call for demonstration—they are so subtly done, preserving front fullness, tummy emphasis, that the Duchess of Windsor liked so well other women wanted more of it—are justified on the basis that they are easiest to put on without a maid, without mussing the hair, give timely freedom of action ... If you must have an explanation ...

Unwittingly Mainbocher risked the ire of the milliners by his series of head "gestures," not hats, just an echo of a dress ... Adorable cocardes of print nestled in ribbon bows, or a bouquet of buttercups and black ribbon bows, or

one quill slanting sideways above a dainty forehead veil, are young and most effective toppers for these spring clothes ...

Navy, the deep midnight shade, appears in sheerest fabrics for evening ... These are accordion pleated and long, worn over shorter slips, belted in navy satin ribbon usually with a corsage of white violets at the waist ...

The War Production Board will be glad to know that the accordion-pleated dresses give the impression of full skirts without requiring as much material as bouffant skirts ... The longer daytime skirts are slim, therefore take less fabric than short full skirts ... They're a real break for the tall girls and present a beautiful new balance of peplums ...

Clean cut for summer evenings: A white linen dinner jacket with emerald green glass bead fringe set on like four curved pockets, filled in at the neck with a high-banded white dickey with a center spot of the coloured beads ... Shown with a slim black dinner gown ...

Mainbocher believes the lovely dress for just one appearance is a luxury that is gone with Paris' colourful past ... A new dress must look unquestionably right on many varied occasions ...

Right? ... Right!! ...

**THINGS FEW NEW YORKERS KNOW ABOUT NEW YORK:**

There is \$4,000,000 in gold at the bottom of the East river. The treasure was aboard a British ship that sank there in 1870. Many attempts have been made to recover the money, but they all failed ... The Bronx has its own flag ... Everybody knows that the Statue of Liberty carries a torch in her right hand. Know what she holds in her left? It's a book representing Law, which has on it in block letters the date, July 4, 1776, signifying liberty based on law ... Next time you pass Grant's tomb and you want to show your friend how much you know about New York, raise his eyebrows by pointing out that the general's body is encased in three coffins.

New York has 36 buildings that are 36 stories high or higher. There are only 20 such buildings in the rest of the country. (Yes, the Big Town has the big buildings, the big heads—and the rest of the country has most of the big hearts.)

The first New York census showed that it had 1,000 people and 20 houses ... In the early 17th century, South, Water and Front streets were covered with water, and Broad street was an inlet used as a canal ... City Hall park is now a gathering place for mendicants and pretzel salesmen, but it's rich in history: It was in that park the Declaration of Independence was first read to the American army ... In the early days of New York, the political big shots used to tax the Indians for "protection." (So you think racketeering is something new, eh?) ... The Staten Island ferry opened its run in 1713. (And through all those years it has been woeful!) ... During the Revolutionary war the first attack on a battleship by a submarine occurred in New York harbor ... They used to hold steamship races on the Hudson, by cracky! ... New York city owns and operates a fleet of ferryboats ... No wonder Mayor La Guardia is pugnacious. He has even had a punching bag installed at City hall ... Incidentally, Fiorello has a tiger skin and head in his home, as a mark of his victory over ye olde Tammany tiger.

Lester Rice: The crowd as one person patted him on the back with their lungs ... James Cannon: He's one of the old songs of New York ... Vina Delmar: She was exquisite. She had the face of the month ... Faith Baldwin: She had that special bloom which only women in love are permitted; happiness was luminous in her eyes, arrogant in her walk, and shaped like a kiss upon her mouth ... At a Jewish Youth Conference, sponsored last week-end by the Zionist Youth Council at the Jewish Community Center, the combined groups reaffirmed their intentions to carry on vital Zionist activities in the city, and passed the following resolutions:

A resolution, expressing the sense of sorrow and indignation of American Jewry at the sinking of the S. S. Struma in which 750 Jewish refugees perished while on their way to Palestine, was unanimously adopted at a meeting of representatives of all local Zionist organizations, held last Sunday. The resolution called upon the British administration in Palestine to prevent the occurrence of such tragedies in the future, and also to permit a Jewish military force in Palestine under British command.

Copies of the adopted resolution were sent to President Roosevelt, Lord Halifax, the British Amba-
